American Kennel Club Honors Bakersfield Obedience Training Club With A Community Achievement Award

[Friday, July 17, 2009]

New York, NY – The Bakersfield Obedience Training Club (BOTC) of Bakersfield, Calif. has been named a recipient of the American Kennel Club® (AKC®) Community Achievement Award for its work with legislators to promote effective canine legislation and collaborate with local shelters.

The AKC Community Achievement Awards support and recognize outstanding public education and legislation efforts of AKC-affiliated clubs, AKC-recognized federations and their members. The AKC selects award recipients who promote purebred dogs and responsible dog ownership within their communities or who have successfully introduced, monitored and responded to legislative issues affecting dog ownership.

Serving the southern Joaquin Valley since 1961, the Bakersfield Obedience Training Club was instrumental in preventing the passage of mandatory spay/neuter legislation when it was given serious consideration by Kern County and municipal lawmakers.

BOTC action at the city, county, and state levels would not have been possible without a concerted effort from every club member.

The club attended the monthly meetings of the county animal-control commission, and urged other area clubs to attend meetings and espouse the position of responsible breeders and owners. The members drew up a legislative agenda and talking points, and engaged the county supervisors individually. BOTC also forged new alliances with other groups concerned with animal welfare, most notably the Kern County Animal Shelter and the local humane society. Club members and shelter workers didn't agree on everything, but both groups shared common goals they could achieve together.

The Bakersfield Obedience Training Club helped the shelter implement new programs for fund-raising and boosting adoption rates. This involvement included club members setting up a grooming program to make shelter dogs more presentable to potential owners, collecting warm bedding for the shelters and helping fund a spay/neuter voucher program for the pets of low-income families.

In the midst of all these time-consuming events, the BOTC continued to raise its community profile and educate pet owners with an AKC Responsible Dog Ownership Day, Canine Ambassador visits to schools and libraries, and support for military K-9 workers.

"The help of local club members and their grassroots efforts are critical in our efforts to prevent restrictive legislation in our communities," said Ron Rella, AKC's Director, Project Administration. "The Bakersfield Obedience Training Club demonstrates how important it is for people to be involved in their local, state, and national legislatures so that we can be invited to the table when dog legislation is being considered in a community."

Legislative News

SB 250 was moved out of appropriations Aug 27th. There are no exemptions for

Law enforcement dogs
Cadaver dogs
Service dogs
Bomb detection dogs
Guide dogs
Movie and television dogs
Performance dogs
Show dogs

Any dog attending any event without wearing a license tag is in violation. This is a one strike bill. Without a doubt the single most destructive piece of legislation for dog owners in California. This is not about solving any problem.

SB 250 is without a doubt the most destructive law ever for dog owners. Any dog at a show without a license on his collar, or off leash is in violation. The fact that obedience doesn't allow tags in the ring, the fact that show dogs don't wear tags in the ring, means NOTHING. You only get one chance. Once you've been cited, your dog is spayed or neutered and SO ARE ANY OTHER DOGS YOU OWN. You think they won't come after you at a show? Just check around and see what they're already doing.

The Burbank shows are September 26 and 27. SB 250 could be on the books by then. Maybe it's not likely, but what if? What if AC decides to make an example of us at that show? You could lose your entire breeding stock. If not Burbank, how about Riverside, San Gabriel, any show, anywhere in California? Every time you enter, you'll be putting your dogs at risk, all of them.

And if you're one of those who flies under the radar and doesn't license – and you get

caught – you won't need to commit a leash violation or anything else. You'll be cited, dogs sterilized and you won't be allowed to own an intact dog ever again.

If you don't show but you compete in obedience or agility, chances are you already spay/neuter your dogs and think none of this applies to you. Dogs get old, they retire, time for a new puppy. Where will you get that puppy? From a breeder? Yeah, right.

We have eleven days to make the biggest stink Sacramento has ever seen. Remind them that this bill will cost the state a fortune. Call, write, fax, email. Then do it again. Tell everyone you know to do the same. Every Democrat in the Assembly needs to hear from you.
